Please let us know of any special features we could possibly add keeping in mind it needs to be within our capabilities (not overly elaborate or time consuming). ie. Two different colored eyes or facial mole. Please describe and we can see what we can do. If it's something pretty elaborate, we are open to discussing it, but it may require an additional fee due to time.

**Clothing:** Girl dolls will come with underpants, shoes, a frock and leggings. Once your doll is complete, you are welcome to choose a frock (no costumes please) from either the preview photos of the frock upload or anything on our clothing site. Boy dolls will come with underpants, shoes, tee, jacket and pants. If there is any boy clothing on our site, once your doll is complete, you are welcome to choose a tee and pants.

**Guidelines of having your custom doll created for you.** Please read carefully as we really want to work with you and hope you can respect the limitations we have set in place...

- We will aim to make your doll within an 8-week time frame. Sooner if we can and the only reason we could foresee it taking longer would be working on getting the yarn dyed specially.
- We will help to guide you through the process but we would like to produce your order efficiently and ask that you be decisive in your request. In order to be able to put the right amount of focus on your project, we ask that your initial decisions be made by the **following Tuesday after you've purchased your custom spot** and that the design of the doll is finalized **within the first week (by Friday)** so that we can get working on your project.
- Once your listing has been purchased, we will email you with the request list specifics. As mentioned above, we will be aiming to work within a certain timeframe as there will be several other customs on the go and we want to keep this as efficient and organized as possible, while still trying to satisfy everyone's needs.
- We will match each request you have to the best of our ability. Please remember that this is an art form and with that comes different interpretations. That being said, we are pretty awesome at what we do and fancy ourselves great with colors and enough know-how to get you what you are looking for.
- We will dye yarn to match as closely as we can to a color sample that you provide. We do reserve the right to use the leftover yarns on future dolls we make. As well, we hope you understand that we will match it to the best of our ability. *If you are not happy with the color, we will not re-dye it for you or change the color.*

We cannot stress this enough, making a handmade product to suit someone's preferences requires you to be somewhat flexible. We will do everything in our power to match your specifics as closely as possible, but ask that you remain open to the fact that things like yarn dye color can vary and that there is always a possibility that yarn could be back ordered, etc.
